

XPC Self-defense

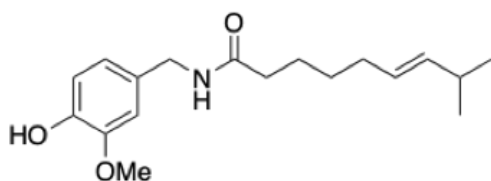

XPC Precise COOL

XP Chemistries produces self-defense mixtures from forest based raw materials and we have developed a new sustainable process for production of ingredients with high purity.

Based on our high quality Menthol, we produce a ready to fill self-defense liquid called OFS Precise COOL.

A liquid for self-defense spray based on Menthol that can be used in many countries where pepper sprays are no allowed.

Ready to fill pepper spray liquid:

- Up to 15% Mentol for effective incapacitant effect
- Non-flammable (flashpoint >75°C, >167°F)
- Low freezing point (<-23°C, <-9°F)
- Available with strong RED color and UV-dye to enable attacker identification
- Suitable viscosity
